

## Pacific Ford Day

Another great day at Pacific Ford Dealership at Maroochydore, thanks again to Greg Manchester for inviting us. The weather was fantastic, sun was shining lots of cars to check out, but unfortunately more new than older cars.

Next year hopeful more of our club members will put in an effort to attend. Allan Moffart was there again this year and spent a lot more time with people and having at chat about his history with the coke a cola Mustang which the Bowden's brought down with them this time. There were two other drivers but I didn't take any notice who they were (sorry guys). Mark V had a good result on the Dyno which is always a draw card for the people attending.

The Fire & Rescue Guys put on a display of how the cut people out of crashed cars, would have been a good to see but I missed it.

As always Eddie made it down from Nanango to display his cars and the guys sitting back enjoying the sun.

Hope to see more of you there next year.

Jo T
